SOLUTION OVERVIEW

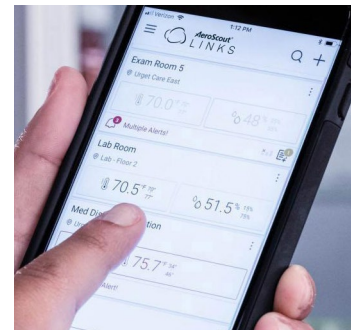

Cloud-based care for Environmental Monitoring

SOLUTION BENEFITS

- **Simple, affordable and scalable** solution for pharmacy, lab, clinics and hospitals.
- **Actionable information** to meet regulatory compliance, prevent product loss, improve staff efficiency and patient safety.
- **Automated and continuous monitoring.** Ongoing data recording, providing real-time alerts whenever an issue occurs.
- **Ease of use and navigation.** Application is intuitive and provides easy to understand information allowing staff to focus on top priorities.
- **Flexible.** Our system provides visibility to temperature, humidity, and door (open/close) status at a single facility or across multiple locations.

SMART ALERTING AND CONTINUOUS DATA MONITORING

Regular status updates and real-time alerts on environmental data. Sensors continue to log data during power or network outages, ensuring continuous monitoring and recording. On-demand reports with dashboard reporting and analytics. NIST certification available.

DISCOVER A NEW LEVEL OF PRODUCTIVITY AND COST SAVINGS

Enhanced efficiency when you're on premises. Peace of mind when you're away. Additional benefit of cost savings from decrease in spoilage, and competitively priced tag options.

SECURE AND ROBUST INFRASTRUCTURE

Best-in-class cloud services for maximum data security. Automatic backup to ensure data is always available and compliant with regulatory standards. Meets requirements for CDC, VFC, COVID-19 vaccines and the FDA.

SIMPLE DEPLOYMENT AND ADMINISTRATION

Set up takes minutes. No servers. Minimal IT resources required. Easily scalable to monitor multiple areas and facilities.

LOWER COST OF OWNERSHIP

No third-party components to purchase. Simple, affordable subscription plan.

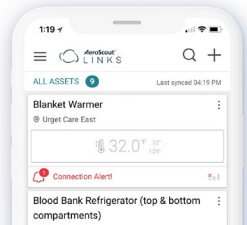

Environmental Monitoring made simple

EVERYTHING YOU NEED TO MONITOR YOUR ENVIRONMENT IN REAL-TIME

IoT sensors

Field-proven, robust and reliable

Mobile app

Simple design, easy to use

Cloud

Always on, at lower cost

Avoid the risk of not monitoring your environment. Our environmental monitoring solution helps to prevent loss, increase efficiencies, and protect your organization's reputation.

Areas of use

PHARMACIES AND LABS

Meet stringent requirements for refrigerators storing critical pharmaceuticals such as drugs and vaccines or lab samples sensitive to temperature changes.

CLINICS AND OUTPATIENT CENTERS

Meet strict compliance regulations for safeguarding your clinical environment in surgery centers, urgent care, dialysis centers, blood banks and clinics. Increase staff efficiency, reduce costs, and improve patient safety.

HOSPITALS

Provides monitoring capabilities beyond labs and pharmacies such as surgery suites, patient units, and food service. Monitor ambient temperature and humidity conditions in IT and utility spaces.
