Securitas Healthcare

A New Era of Healthcare RTLS Has Arrived

Cloud-based RTLS from Securitas Healthcare

Securitas Healthcare is excited to introduce a powerful new addition to our Real-Time Visibility and Protection portfolio. **We now offer a cloud-based Real-Time Location System (RTLS) software** that gives healthcare organizations greater flexibility in how they deploy, scale, and realize value from RTLS solutions.

Built on 40+ years of healthcare expertise, we're combining deep industry and RTLS knowledge with innovative cloud technology to help organizations create safer, smarter, and more efficient care environments.

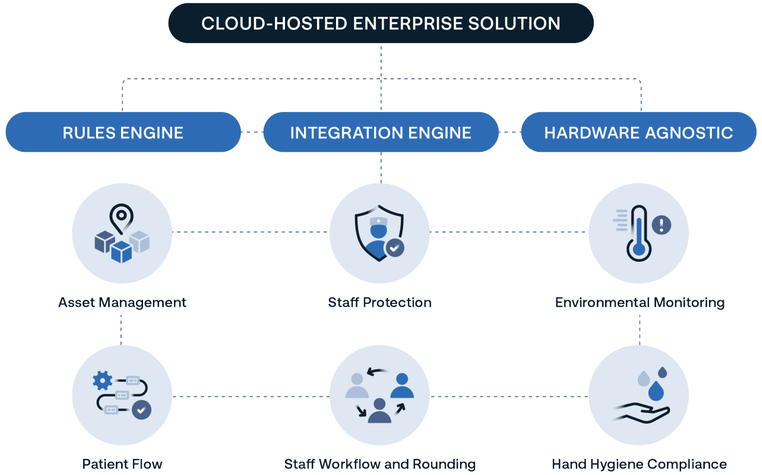

- **Scale faster** – Expand across facilities without adding additional servers
- **Realize value sooner** – Faster deployment and time to value
- **Reduce complexity** – Minimize IT overhead and simplify system management
- **Stay ahead of issues** – Proactive remote monitoring and faster support
- **Innovate continuously** – Deploy upgrades and new capabilities in minutes
- **Invest your way** – Lower total cost of ownership with flexible investment options

"We listened to our clients. Healthcare organizations want the flexibility to evolve their RTLS strategies on their own terms. By expanding our cloud capabilities and continuing to invest in MobileView® and Hugs®, **we're giving clients more choice, faster time to value, and a clear path to future innovation.**"

– **Bill McCarthy**
President, Securitas Healthcare

RTLS value you trust, expanded for what's next

Beyond Asset Management, Environmental Monitoring and Staff Protection, the cloud-based software introduces new workflow and compliance capabilities that help streamline operations, support caregivers and drive better outcomes.

New RTLS capabilities

PATIENT FLOW

Optimize patient throughput and reduce elopements via automated alerts, milestones and real-time insights that help improve processes and satisfaction.

STAFF ROUNDING

Digitize and automate rounding programs to improve efficiency, strengthen documentation and help ensure patients receive recommended care.

HAND HYGIENE COMPLIANCE

Reduce risk of healthcare-associated infections (HAIs) while eliminating the manual effort required for compliance tracking and reporting.

Built for today's healthcare environment

Cloud-based RTLS provides the flexible, connected foundation healthcare organizations need to integrate systems, unlock richer insights, and prepare for what's next.

Choose the right technology

TECHNOLOGY-AGNOSTIC BY DESIGN

Support for Securitas Healthcare and qualified third-party tags and badges gives you the freedom to select the technologies that best fit your environment. Future-proof your investment without being tied to a single hardware ecosystem.

Connect everything

SIMPLIFIED INTEGRATIONS

A powerful integration engine connects clinical, operational, and technology systems to create a more connected healthcare environment. Enable smarter workflows, streamlined data exchange and the "smart patient room" of the future.

See what matters

REAL-TIME DASHBOARDS AND INSIGHTS

Intuitive dashboards bring together location, status, and condition data in a single view, helping teams quickly identify what matters most. Turn real-time information into actionable operational insights.

AI starts with better data

BUILT FOR SMARTER DECISIONS

A modern, standardized data foundation delivers cleaner, more consistent information across systems and applications. Gain better reporting today while preparing for future AI-driven analytics and decision support.

More choice. More flexibility. Greater value.

Whether you're looking to accelerate your cloud strategy, modernize existing RTLS infrastructure, or unlock new workflow and data capabilities, Securitas Healthcare can help you achieve your goals with the flexibility and support to move at your own pace.

Securitas Healthcare

The future of connected healthcare

RTLS is not one-size-fits-all. Every healthcare organization has unique operational challenges, technology investments and strategic priorities.

That's why Securitas Healthcare offers a flexible portfolio of solutions, technologies, deployment models and services designed to meet your organization where it is today—and support where it's going tomorrow.

TRUSTED, SIMPLE, FLEXIBLE, SCALABLE

- **Unmatched expertise**
- **Most comprehensive solution portfolio**
- **Enterprise architecture and open design**
- **Deploy as cloud, on-prem or hybrid**
- **Flexible CapEx/OpEx investment models**
